Summary

About Me

full-stack software engineer skilled in JavaScript, React, .NET Core, and Microsoft SQL Server. Experienced in building high-quality solutions in agile environments and collaborating across teams. Strong problem-solver with a passion for continuous learning and modern development practices.

Education

B.Sc. in Computer Science and Artificial Intelligence   09/2020 – 08/2024
Helwan University
GPA : Very good

Back-end (.Net core) diploma   06/2023 – 09/2023
Route Academy

Technical Skills

- C#
- Entity Framework
- Data Structure & Algorithms
- SQL /DBMS
- C/C++
- Express JS
- HTML & CSS
- asp .Net core
- Microsoft SQL Server
- Object Oriented Programming
- Design Patterns
- JavaScript
- React JS
- XAMPP & PHP MY ADMIN

Projects

Helwan Control ⧉
For controlling the academic registration .
Built this system using asp .NET core Framework. Applying software development life cycle by gathering requirements to build the structure of the control system. used clean code, union architecture, and   repository design pattern

Vacation reservation ⧉
A modular web application built to demonstrate Clean Architecture principles and best practices in .NET 8.
- Built a vacation reservation system with layered Clean Architecture (Domain, Application, Infrastructure, UI).
- Applied SOLID, Repository, and Unit of Work patterns for maintainability.
- Integrated EF Core and dependency injection to decouple logic.

E-Commerce API
Developed e-commerce APIs with .NET Core, applying Clean Architecture, SOLID principles, Microsoft Identity, and the Specification Pattern. Integrated a payment gateway and Redis for performance optimization.

Languages

English
Very Good
